

Rep Udall

OLC #78-0487/29

M
12 SEP 1978

Representative Boland introduced amendments which insured that Intelligence Community classified information would be protected from disclosure under the Special Counsel provisions of the Civil Service Reform Bill.

These amendments were the result of rather long negotiation both between CIA representatives and Representative Boland and secondly Representative Boland and Representative Morris Udall. *- Title I*

Representative Boland, due to the large number of amendments to be presented by others, had to wait for well over an hour and a half before he was able to present our amendments. They were passed unanimously.
